

# Yusupov Javohir

#### Front end Developer

Hello! I'm Yusupov Javohir, a Frontend Developer. Since 2022, I have been working with JavaScript, React, and Next.js, striving to create seamless and engaging user experiences. So far, I have cloned 8 popular websites, which has helped me deeply understand their design and functionality. Currently, I am working on a startup project. Additionally, I have 2 years of teaching experience and currently teach Frontend Development at Iqtidor Academy. I am always eager to learn new technologies and collaborate on exciting projects. Glad to connect with you!
